Press Release  
Date: 26<sup>th</sup> June, 2020  
Time of Issue: 1700 hrs IST

**Subject: Update for ongoing intense southwest monsoon rainfall spell over northeast & adjoining east India**

### Current Meteorological Conditions

- Eastern end of the monsoon trough at mean sea level lies close to foothills of Himalayas.
- Another trough runs from Bihar to east Vidarbha at 3.1 km above mean sea level. It is likely to persist till tomorrow.
- There is high convergence of strong moist southerlies/southwesterlies winds from the Bay of Bengal over northeast & adjoining east India and same is likely to continue for next 2-3 days. .

### Forecast & Warnings

- With the above favourable meteorological conditions, the enhanced rainfall activity is most likely to continue over the northeastern states & adjoining east India during 26<sup>th</sup> & 28<sup>th</sup> June with light to moderate widespread rainfall over Bihar, Sub-Himalayan West Bengal & Sikkim, Arunachal Pradesh, Assam, Meghalaya, Nagaland, Manipur, Mizoram & Tripura and **decrease in spread & intensity thereafter**.
- Heavy to very heavy rainfall at a few places with **extremely heavy falls ( $\geq 20$  cm)** at isolated places very likely over Sub-Himalayan West Bengal & Sikkim on 26<sup>th</sup> & 27<sup>th</sup> and isolated heavy to very heavy falls on 28<sup>th</sup> June, 2020.
- Heavy to very heavy rainfall at isolated places with **extremely heavy falls** very likely over Assam & Meghalaya on 26<sup>th</sup> & 27<sup>th</sup>, isolated heavy to very heavy falls on 28<sup>th</sup> and isolated heavy falls on 29<sup>th</sup> June, 2020.
- Heavy to very heavy rainfall at isolated places with **extremely heavy falls** very likely over Bihar on 26<sup>th</sup> & 27<sup>th</sup>, isolated heavy to very heavy falls on 28<sup>th</sup> and isolated heavy falls on 29<sup>th</sup> June, 2020.
- Isolated heavy to very heavy falls is also very likely over Arunachal Pradesh on 26<sup>th</sup> & 27<sup>th</sup> and isolated heavy falls on 28<sup>th</sup> June, 2020.
- Detailed forecast & warnings for next 5 days are as follow:

Sub-Divisions	26 June 2020*	27 June 2020*	28 June 2020*	29 June 2020*	30 June 2020*
Sub-Himalayan West Bengal & Sikkim	Rainfall at most places with heavy to very heavy rainfall at a few places & extremely heavy falls at isolated places	Rainfall at most places with heavy to very heavy rainfall at a few places & extremely heavy falls at isolated places	Rainfall at most places with isolated <b>heavy to very heavy</b> rainfall.	Rainfall at most places	Rainfall at many places
Arunachal Pradesh	Rainfall at most places with isolated <b>heavy to very heavy</b> rainfall	Rainfall at most places with isolated <b>heavy to very heavy</b> rainfall	Rainfall at many places with isolated <b>heavy</b> rainfall.	Rainfall at many places.	Rainfall at many places.

<b>Assam &amp; Meghalaya</b>	Rainfall at most places with isolated heavy to very heavy & extremely heavy falls	Rainfall at most places with isolated heavy to very heavy & extremely heavy falls	Rainfall at most places with isolated <b>heavy to very heavy</b> rainfall	Rainfall at most places with isolated <b>heavy to very heavy</b> rainfall	Rainfall at most places with isolated <b>heavy</b> falls
<b>Nagaland, Manipur, Mizoram &amp; Tripura</b>	Rainfall at most places with isolated <b>heavy</b> falls	Rainfall at most places with isolated <b>heavy</b> falls	Rainfall at most places with isolated <b>heavy</b> falls	Rainfall at many places.	Rainfall at many places.
