

**Government of India
Ministry of Earth Sciences
India Meteorological Department**

**Press Release
Date: 15th November, 2022
Time of Issue: 1200 hrs IST**

**Subject: (i) Formation of a Low pressure area over Southeast Bay of Bengal & adjoining Andaman Sea on 16th November, 2022.
(ii) Subdued rainfall activity likely over south Peninsular India during next 5 days and increase thereafter.**

Weather observed during past 24 hours ending at 0830 hrs IST of today: (Refer Annexure I)

Weather systems, rainfall/thunderstorm Forecast & Warnings: (Warning Graphics in Annexure II)

- A cyclonic circulation lies over south Andaman Sea & neighbourhood and extends upto middle tropospheric levels. Under its influence, a Low pressure area is likely to form over Southeast Bay of Bengal & adjoining Andaman Sea on 16th November, 2022. It is likely to move west-northwestwards and gradually concentrate into a Depression over central parts of South Bay of Bengal around 18th November, 2022. Under its influence;
 - ❖ Widespread rainfall with **heavy falls** very likely at isolated places over Andaman & Nicobar Islands on 15th & 16th November 2022.
 - ❖ **Squally weather (wind speed 40-45 kmph gusting to 55 kmph)** likely to prevail over south Andaman Sea & adjoining Southeast Bay of Bengal on 16th; over Southeast Bay of Bengal on 17th & 18th and over Southwest Bay of Bengal & adjoining Sri Lanka coast on 18th & 19th November, 2022.
 - ❖ Fishermen are advised not to venture into south Andaman Sea & adjoining Southeast Bay of Bengal on 16th & 17th; Southeast Bay of Bengal on 17th & 18th; Southwest Bay of Bengal & adjoining Sri Lanka coast on 18th & 19th and along & off Tamil Nadu-Puducherry Coasts on 20th & 21st November, 2022.
- A Western Disturbance as a trough in mid tropospheric westerlies runs along Long. 55°E to the north of Lat. 30°N. Under its influence,
 - ❖ Isolated/scattered light to moderate rainfall/snowfall very likely over Jammu, Kashmir, Ladakh, Gilgit Baltistan & Muzaffarabad and Himachal Pradesh on 18th & 19th November, 2022.
- **Fall in minimum temperatures by 2-4°C very likely over most parts of northwest India & Madhya Pradesh during next 3 days and no significant change thereafter.**
