Press Release-5

Sub: Well Marked Low Pressure Area (Remnant of Severe Cyclonic Storm "Murasu") over East Telangana & adjoining Coastal Andhra Pradesh

Yesterday's Severe Cyclonic Storm **"Murasu" [Pronunciation: Murasu]** over South Coastal Andhra Pradesh moved nearly north-northwestwards and weakened into a Cyclonic Storm, over the same region in the afternoon (1430 hours IST) and into a Deep Depression over Coastal Andhra Pradesh in the night (2030 hours IST) of yesterday, the 03rd November, 2026. It then moved nearly northwards, weakened into a Depression over east Telangana & adjoining Coastal Andhra Pradesh in the early morning (0530 hours IST) and into a Well Marked Low Pressure Area over the same region in the noon (1130 hours IST) of today, the 04th November, 2026.

Continuing to move nearly northwards, it is very likely to weaken further into a Low Pressure Area over the same region during next 12 hours.

It is under the continuous surveillance of Doppler Weather Radars at Machilipatnam and Visakhapatnam.

(i) Rainfall warning:

North Coastal Andhra Pradesh: Light to moderate rainfall at most places with **heavy to very heavy** rainfall is very likely at isolated places on 4th November.

Telangana: Light to Moderate rainfall at most places with **heavy to very heavy** rainfall at isolated is very likely over east Telangana on 4th November.

South Odisha: Light to moderate rainfall at few places with heavy rainfall is very likely at isolated places on 4th November.

Chhattisgarh: Light to moderate rainfall at many places with heavy rainfall is very likely at isolated places is likely over south Chhattisgarh on 4th November.

North Tamil Nadu: Light to moderate rainfall at many places with heavy rainfall at isolated places is very likely on 4th November.

(ii) Wind warnings:

East Telangana & North Coastal Andhra Pradesh:

Strong wind speed reaching 25-35 gusting to 45 kmph would prevail during next 12 hours and decrease gradually thereafter.

(iii) Damage Expected over Telangana, North Coastal Andhra Pradesh, South Chhattisgarh, South Odisha due to heavy rainfall and Action suggested

- **Agriculture:**
  - Damage to standing crops, plantations, orchards, banana, Papaya and drumstick trees.
  - Damage to horticulture and standing crops and coastal crops.
- **Roads/Rail:**
- Some breaches in Kutcha Road due to flooding.
  - Flooding of escape routes. Check for traffic congestion on your route before leaving for your destination.
  - Localized Flooding of roads, water logging in low lying areas.
  - Disruption of traffic in major cities due to water logging in roads leading to increased travel time.

- **Drinking water/sanitation and human/animal health**.
- **Secondary hazards:** Riverine flooding, Urban flooding, coastal flooding, landslides in hilly areas

Action Suggested

- People in affected areas to remain indoors.
- Avoid staying in vulnerable structure.
- Judicious regulation of rail and road traffic
- Follow any traffic advisories that are issued in this regard.
- Avoid going to areas that face the water logging problems often.
- Tourism activities may be judiciously planned till 4th November.
